COMMEMORATION OF FR. LOUIS CHAUVET

On 21 June 2017, St. Paul University Manila celebrated the Commemoration of Fr. Louis Chauvet, founder of the Congregation of the Sisters of St. Paul of Chartres.

The St. Paul Manila community remembered these words of Fr. Chauvet: "I have no greater blessing than to hear my daughters walk in the TRUTH."

SEND OFF FOR SPC ASPIRANT

The St. Paul Manila SPC Community gave Therese, an aspirant to the SPC Congregation, a happy send-off as she goes to the novitiate in Antipolo after a month-long exposure to SPU Manila.

The Sisters' wish is that Therese will enter the postulancy and the novitiate and that she will persevere.

FOR THE GUIDANCE OF THE SPU MANILA COMMUNITY

In this age of information overload and fake news, it is deemed timely for our academic community to be guided by our bishops on the subject.

CBCP guide lists websites peddling fake news

A guide issued by the CBCP tags at least 29 websites for 'carrying fake or unverified contents'.

BISHOPS' GUIDELINES. The Catholic Bishops' Conference of the Philippines, led by Archbishop Socrates Villegas (in photo), issues pastoral guidelines on the use of social media.

MANILA, Philippines – Beware of these websites.

Months before issuing a pastoral letter against fake news on Wednesday, June 21, the Catholic Bishops' Conference of the Philippines (CBCP) published its Pastoral Guidelines on the Use of Social Media. It comes with an appendix on websites "carrying fake or unverified contents."

Here is the partial list of websites "carrying fake or unverified contents," based on the CBCP Pastoral Guidelines on the Use of Social Media issued on January 30:

Of these websites, five links—Guard1an, Kalye Pinoy, Trending Balita, Trending News Portal, and TrendTitan—are either dead or under construction.

One website, OKD2, when visited, morphs into the website "Pinoy Pride" under the URL thehpriide.blogspot.com.

Meanwhile, the website FilipiNews PH is not in the URL www.filipinewsph.com, as stated in the CBCP guidelines, but in the URL www.filipinewsph.net.

This reflects the characteristic of fake news websites, which can morph as needed or move to other URLs, depending on whether they have been tagged or blocked as sources of fake news.
