YEAR-END ACTIVITIES: RETREAT AND OUTING

Two year-end activities for the SPU Manila personnel were held last week: the annual retreat and the institutional outing.

The retreat was held on 4-5 June 2018 in the St. Paul Renewal Center in Alfonso, Cavite. There were two groups—the Faculty and Lay Administrators, who had Fr. Ferdinand Maguigad as retreat master, and the administrative staff, with Fr. Enrico Gonzales, OP.

The two groups got together for a souvenir photo in the chapel after the retreat:

The second activity was the institutional outing, held on 6 June 2018 in the Chateau Royal Hotel Resort Spa, where everyone enjoyed swimming, ziplining, dancing and singing or just relaxing after a schoolyear's work. Here are some pictures of the enjoyable activity:

CMPA HOLDS THIRD MUSIC THERAPY CONFERENCE

Following the success of the 2015, 2016, and 2017 conferences, a need to continue introducing Music Therapy in the country and to provide more learning experiences for those who have been introduced to the practice earlier became apparent.

Hence, the College of Music and the Performing Arts held the 4th National and 1st International Music Therapy Conference in the HRM Training Center and Founders Hall on 1-3 June 2018.

St. Paul University Manila
College of Music and the Performing Arts
proudly invites you to join

The Sound of Healing

Register and pay on or before April 30, 2018 for Early Bird Discount

Although there were participants from Indonesia, Thailand and other Asian countries in the first three conferences, this 4th National Music Therapy Conference was the first International Music Therapy Conference featuring internationally accredited Music Therapists: Ms. Annette Asuncion, MS, MA, NBTC (USA) and Ms. Angel Leung, MM, MT-BC, MTA (Hongkong). They were joined by other music therapists who presented their papers and discussed related topics that will be beneficial to both the practice and the practitioner. Music Therapy is the use of music aimed to develop potentials and/or restore functions of differently challenged individuals so that they can achieve better intra- and inter-personal integration and consequently, a better quality of life through prevention, rehabilitation, or treatment.

Here are some picture of the conference:
