SPU MANILA PARTICIPATES IN NATIONWIDE EARTHQUAKE DRILL

On 21 June 2018, SPU Manila participated in the Nationwide Simultaneous Earthquake Drill. The National Disaster Risk Reduction and Management Council and the Office of Civil Defense called for this drill because "Time has proven that one can never be too prepared for worst case scenarios." This is the second drill for the year, the first one having been on 15 February 2018.

At the appointed time, 2:00 P.M., the school mobilized everyone on campus. At the end of the drill, it was reported that "Everyone was able to evacuate safely. No casualties were reported. All students, teachers, employees, personnel,

and guests were accounted for."

Duck, cover, and hold...

...then evacuate the building.
